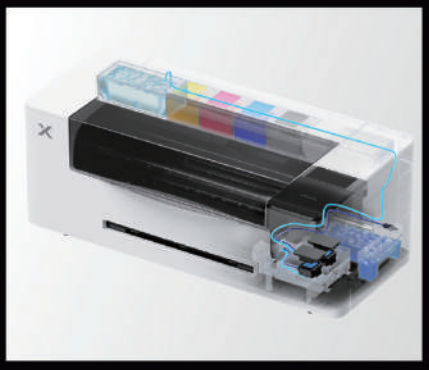
XTOOL

xTool Apparel Printer

Print Stunning Apparel in One-Click

Stunning Prints on Any Apparel, Any Fabric

The xTool Apparel Printer works with virtually any fabric—cotton, leather, polyester, canvas, spandex, and more. Whether the fabric is light or dark, it delivers flawless results every time. No limits. No compromises. It's the one solution for all your apparel printing needs.



Automated Maintenance with Intelligent Monitoring

With full lifecycle automatic maintenance, your printer stays in optimal condition when plugged in. Our innovative algorithms use real-time data from the printer's humidity sensor to control automatic printhead cleaning and white ink circulation, reducing the risk of clogs in printhead nozzles and waste ink tubes.

Revolutionizing Apparel Printing: One Click to Bake

Transform your designs into finished prints under 10 minutes. Simply drag and drop your design. Click once, and receive a freshly printed and baked transfer—ready to press onto your chosen fabric. It's as intuitive as printing a document from your home printer.

Print Vibrant Colors with High Definition Details

With Epson i1600 dual print heads, your designs come to life with HD resolution. This exceptional level of detail is made possible by a high-density array (NPI 300) of ultrafine ink drops (3.8 pL). The two heads work together seamlessly, with one delivering vibrant colors and the other applying white ink to ensure flawless color replication, even on the darkest fabrics.

Specification			
Product Dimensions	Size	14.04 × 14.02 × 35.59 inches	
	Weight	61.73 lbs	
	Print Width	13 inches	
Printing Capabilities	Materials Application	All fabrics, including cotton, polyester, denim, canvas, spandex, nylon, and more	
	Print Head	Epson I1600 Dual Print Head	
	Printing Resolution	720 × 1800 DPI	
	Minimum Ink Drop Size	3.8 pL	
	Printing Speed	Up to 50 sq ft/hr (720×1200 DPI)	
	Printing Mode	Single Sheet-Fed	Roll-Fed (Delivered Later)
	Printing Color	CMYK + WW	
	Supported Software	xTool Creative Space (Includes AI-Powered Design Generator, RIP, Auto Nesting, Printing Layout, Machine Control, and more)	
Software and Maintenance	Software Compatibility	Mac, Windows Supported	
	Calibration	AI 16MP Camera Auto Calibration	
	Maintenance	App Remote Monitoring	Auto Printhead Cleaning
		Auto Ink Circulation/WIMS (White Ink Management System)	
	MSRP	$8,298.00 (All-in-1 Bundle)
